

CV – [REDACTED]

## PROFILE SUMMARY

*Recently graduated from the University of Lincoln with a BSc in Biomedical Science, I am looking to leverage my strong science education in this field. I bring a unique combination of skills to help me solve complex problems collaboratively using mathematical analysis and creativity. With strong social skills I have an ability to communicate complex technical messages with different audiences.*

## EDUCATION

Sep'19 to June'22      **University of Lincoln**      Undergraduate Biomedical Science BSc

- Final year result: Upper second-class hon.

Sep'17 to June'19      **Finchley Catholic High School**      A-Level; Biology, Chemistry, Maths

Sep'12 to June'17      **Mill Hill County High School**      GCSE's

## WORK EXPERIENCE

June'21 to Sep'21      **HIGHJAM**      Brand Ambassador

- Used social skills to interact with the public to sell products.
- Under tight pressure to meet daily targets.

Jul'21 to Aug'21      **University of Lincoln**      Research assistant internship

- Manipulated and processed large data quantities.
- Used coding software to present and quantify statistics.
- Work in a team to strategies how to approach these data sets.

Jul'20 to sep'20      **Waitrose and Partners**      Sales Assistant

- Structured work environment with customer experience at the focus.
- Quickly adapt to new situations as they arise day to day.

## OTHER SKILLS

### *Data and analysis*

*Heavily research and practical based degree with laboratory practical classes has kept my attention on every detail, following an extensive methodology and applying my own knowledge as problems arise. Processing all the received results allows for detailed and through analysis followed by proper report writing which all provide useful for this job.*

### *Presentation and communication*

*I presented my final project in my final year at university to a board of scientists and my peers to show them all my processes and findings for my project. This was a fun experience allowing me to showcase everything I was working on for so long.*
