I am a highly adaptable, goal-oriented professional with a valid Spanish work permit (NIE – Y0417755C). I worked as a Military Health Care Provider on an Army base in Germany for five years before teaching English as a TEFL certified English teacher (CVN-00167819 and certified young learners teacher CVN-820) in Spain for the last ten years. My formal education is focused on Religion and Philosophy, but I also study western history as a hobby and have a deep love of math and science from my studies to become a private pilot. I have a Spanish wife of fourteen years and two bilingual children, a twelve years old daughter and a ten year old son with whom I spend my free time.
