Carta de presentación

I am extremely grateful to be able to apply for this position within Bnzsa. I feel that I would be a perfect fit for the role as I have so much experience from my previous jobs, and I have always adapted well to new challenges and structure.

My customer service skills are incredible and I connect very quickly with my colleagues and external clients whilst remaining professional.

I am a fast learner and always excited to learn and grow. You can count on references from all my previous employers which I know would verify everything I have said above, however please feel free to reach out to me for any additional information that I can provide to you.

Thank you once again for this opportunity to apply to Bnzsa and I sincerely hope that I hear from you again.

Killer questions

Tell us about your experience of working on the phone, please.

I have always worked on the phone in all my previous jobs. I have performed cold calling, sales, performance reviews, I have conducted interviews, attended high profile meetings and I have done training on the phone. I believe I have covered every possible scenario and it is extremely natural for me to perform all capabilities by phone.
